

# Digital Blood Pressure Monitor

This Digital Blood Pressure Monitor is the easiest way to take blood pressure readings at home and is the ideal solution for those who do not have the time or energy to visit the hospital. Just attach the cuff to your wrist (fits most all sizes) and press start for accurate, clinically proven readings in just seconds! The large, easy to read digital display will show systolic pressure (high blood pressure), diastolic pressure (low blood pressure), and heart pulse, letting you know if you should start changing your lifestyle.

This Digital Blood Pressure Monitor includes a memory feature for storing up to 60 previous results, allowing you to keep a record of your blood pressure history. The light and portable size makes it great for taking with you when you need it and also makes for a perfect gift for your parents, grand parents, and friends.

If you were curious about your blood pressure, but don't feel like a trip to the hospital, this Digital Blood Pressure monitor is for you!
